

mySOC[®] for OT / IoT

Secure your OT and IoT environments 24/7

Cyber risk is a strategic subject for industrial environments. mySOC for OT/IoT provides full visualization and protection to your critical environments without disrupting production. Alerts from logs or OT / IoT network probes are assessed by our analysts and remediation is co-operated with your operational teams

**Protect industrial
information
systems**

**Addressing the
specifics of industrial
environments**

**Monitor your industrial
assets without
disrupting operations**

- + Correlation of industrial events in a unified surveillance plan.
- + Qualification of security alerts and incidents reported 24/7.
- + Support from renowned experts in industrial information systems

We operate leading solutions:

Cyber**MDX**

NOZOMI
NETWORKS

mySOC for OT / IoT protects you from

- Uncontrolled 4G/5G remote access
- Unusual traffic between devices
- Abnormal instructions on PLCs
- Connections of illegitimate equipment
- Misuse of assets
- Uses of unauthorized protocols

mySOC supports essential actions:

- + Analysis of industrial protocols (Modbus TCP, PROFINET...)
- + Mapping of industrial assets
- + Vulnerability management
- + Modeling of nominal operation
- + Prioritization of security alerts
- + Orchestration of remediation action plans

About Advens

Advens is a European, independent and outstanding leader in cybersecurity. We are located throughout France (Paris, Lille, Lyon, Marseille, Toulouse, Bordeaux, Nantes and Rennes), Spain (Madrid, Barcelona, Bilbao, Valencia), Italy (Milan, Roma), Germany (Munich) as well as Quebec, and Tahiti.
